1. Open bed and roll sofa body forward as shown.

2. Release the Velcro holding the dustcover flap to the Back of the sofa and roll it up next to the front rail.

3. Remove bolt(s) on each side of sofa as shown. Sofas where the Back of the sofa does not overhang the Arm have more than one bolt on each side of the sofa.

4. Place a block that is taller than the sofa leg as shown. Press down on the top arm with your knee to release the Back. Move the block to the other arm and repeat.

5. Lift the Back up and out to remove. Installation is reverse of removal.
